

# Assessment services

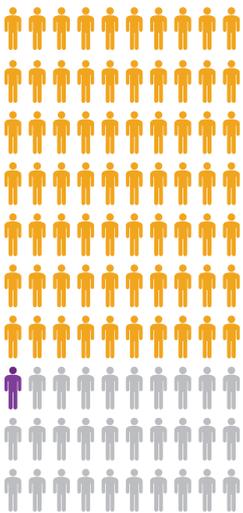

Emotional Intelligence Worldwide offers positive, scientific tools to assess and develop people’s emotional intelligence, strengths and leadership capability to achieve optimal performance and wellbeing.

Whether you want to select talent or get the best from people, we can help you choose and use the right tools for your workplace or clients, accredit your team and administer results.

**Assessment services include:**

- |   |                                  |
|---|----------------------------------|
| Talent selection and management solutions   | Assessment debriefs and coaching |
| Leadership assessment and reports           | Professional accreditation       |
| Personal assessment and development reports | Train the trainer                |
| 360 feedback assessment and reports         | Recruitment advice               |
| Team profiles and reports                   | Performance management advice    |

71%

A recent survey found that 71% of employers value EI more than the traditional aptitude test (IQ).

## EMOTIONAL INTELLIGENCE

**MSCEIT** (Mayer-Salovey-Caruso Emotional Intelligence Test)

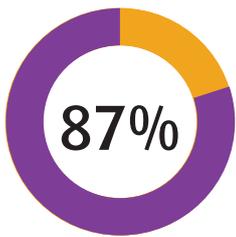

Gain unique predictive and developmental insights about people’s real emotional intelligence abilities to help you determine and enhance their success in a given role. The only abilities-based emotional intelligence test, MSCEIT is a powerful, scientifically validated tool for taking a direct, unmediated measure of this fundamental capacity. MSCEIT can make a decisive contribution to effective workforce selection and development.

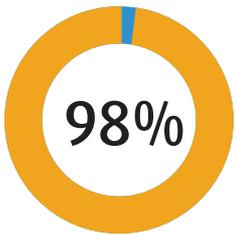

**EQ-I 2.0 and EQi360**

Improve performance by assessing, predicting and developing emotional intelligence, interpersonal skills, decision-making and wellbeing. The first scientifically validated measure of emotional intelligence, EQ-I 2.0 and EQ360 now incorporate a wellbeing indicator. With a full suite of workplace, leadership, 360 feedback and group reports available, you can count on EQ-I 2.0 to add robustness, accuracy and diverse insights to talent initiatives.

87% of employees think the best managers manage differently according to individual needs.

98% of candidates believe an employer recognising their strengths is important.

## STRENGTHS

### R2 Strengths Profiler

Unlock performance potential in individuals, teams and organisations by realising their strengths. Unique and distinct from traditional one-dimensional strengths tests, Realise2 pinpoints strengths, weaknesses, learned behaviours and areas for growth potential. A powerful, versatile and ideal tool to identify talent and enhance employee contribution, engagement and performance across the employee life-cycle and organisation. (Was known as Realise2)

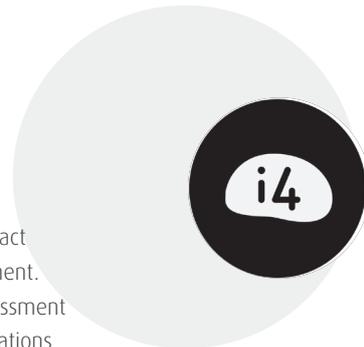

**STRENGTHS  
PROFILER**

## NEUROSCIENCE OF LEADERSHIP

### i4 Neuroleader

Discover the core 'brain and body' abilities that have a direct impact on leadership effectiveness, productivity, wellbeing and engagement. i4 Neuroleader is a leadership development framework, self-assessment and 360 feedback tool that allows individuals, teams and organisations to develop the competencies required to lead in the global innovation economy.

## ACCREDITATION AND TRAINING

As licenced master trainers, we offer accreditation and professional development for coaches, consultants, HR practitioners and business leaders. Learn how to assess and develop emotional intelligence, strengths and neuroleadership capabilities. We also offer training in positive psychology, enabling practitioners to intergrate positive assessment and development strategies throughout their organisation.

### Inhouse and open programmes:

MSCEIT Accreditation

EQi-2 and EQ360 Certification

Bringing Emotional Intelligence to Life

R2 Profiler Practitioner Accreditation

R2 Profiler Team Training

i4 Neuroleadership Certification
