

Circle Solutions for Student Wellbeing Introductory Day

Circle Solutions for student wellbeing

Circle Solutions for Student Wellbeing can help you improve student engagement and develop an inclusive, flourishing learning environment, that benefits everyone in the broader school community.

Circle Solutions:

- provides a whole-school approach to wellbeing
- promotes positive behaviour and relationships
- provides a framework for developing social emotional competencies
- builds resilience
- maximises participation
- emphasises strengths and solutions

Watch this photo film to see Circles in action and how they positively impact individuals, teachers, whole classes and school culture.

Inspiring and practical learning

Teachers say that attending this event is one of the most valuable and practical professional learning experiences.

"Inspiring both in terms of ideas and as a philosophy of learning and living."

"Practical solutions to serious problems and things I can do immediately."

The Circle Solutions Introductory Day will enable teachers and school leaders to:

- understand the evidence base that underpins Circles
- understand why social emotional competencies are critical for effective teaching and learning
- be part of an interactive and collaborative learning experience
- learn how to plan and facilitate Circles effectively
- consider key factors for successful implementation and sustainability
- explore resources and links to current educational issues

Expert facilitators
