

Positive Leadership

Develop the leadership capabilities to cultivate a thriving school community.

Positive Leadership offers a new lens on developing school leaders who become powerful enablers of organisational thriving, excellence and growth.

Rather than focussing on identifying and solving problems that prevent schools from reaching optimal performance, positive leadership inspires leaders and their teams to deviate from the norm and actively create a positive future. Positive leaders engage people by emphasising what elevates them, what they do well, and how they can be inspired to be create extraordinary results.

The **Positive School Leadership** program is designed to develop the leadership capabilities to cultivate the conditions that lead to exceptional performance and a thriving school community. It provides a rich context to explore Positive Psychology and Positive Organisational Scholarship, equipping school leaders with practical, evidence-based strategies and tools to increase performance, wellbeing and engagement in their school and team.

Learning outcomes

- Adopt a positive leadership mindset, knowledge and skill.
- Cultivate a positive emotional climate that spreads across teams and the whole school community.
- Build positive relationships to increase mutual support, collaboration and learning.
- Learn positive communication skills to hold affirmative, supportive and constructive conversations.
- Connect people to values and meaning to increase engagement and fulfilment at work.
- Discover and build on strengths to promote performance, development, teamwork and wellbeing.
- Develop strategies to handle yourself positively during challenging situations and get the best out of yourself and others.

Positive leadership

Positive leaders focus on four key behaviours: cultivating positive climate, building positive relationships, facilitating positive communication and connecting people to meaning and values. This helps them create a positive culture that enables each person within the school community to flourish and do their best.

Tailored programs
